Dr Berrin Tezcan was everything we could ask for in a doctor while I was pregnant. She was thorough, kind, reassuring and deeply experienced in the field. Her practice is modern, clean and everyone there is very professional. I would 100% recommend her support to anyone going through pregnancy.

Doctor Tezcan is really a wonderful doctor. During the pregnancy she took away all my stress. Thanks to her our childbirth was a very beautiful experience, that me and my husband will always remember. We were really lucky to have found her.

Dr Berrin Tezcan is an exceptional doctor, and we feel incredibly lucky to have found her. After a difficult IVF journey, she was recommended to us by a doctor in Dubai, and from our very first appointment we felt that she brought us luck.

With her experience and precise guidance - including support with ovulation treatment and the exact timing of conception, we were incredibly fortunate to become pregnant with our baby boy on the first try. She then supported us throughout the pregnancy and delivered him safely.

We will always be grateful to Dr Berrin for being such an important part of our journey. She is an excellent doctor and we couldn't recommend her more highly.
